ABSTRACT

This bibliography is designed to aid in the selection of literature for visually impaired or physically handicapped students between second and sixth grades. It lists selected fiction books available on disc, on cassette, or in braille in network library collections provided by the National Library Service for the Blind and Physically Handicapped of the Library of Congress. The list is divided into 17 sections: fairy tales; folklore; stories in rhyme; friendship; family life; music; poetry; humor; tales of mystery; frontier and pioneer life; sports, pets, and amusements; children's stories; winter readings; spring readings; summer readings; autumn readings; and special days of celebration. Each entry contains a brief description of the story, an indication of reading level, and a publication date. The guide also contains descriptions of other bibliographies which list materials for individuals with visual impairments. An author-title index and an order form complete the volume. (JDD)

Introduction

Discoveries: Fiction for Elementary School Readers is a guide to selected fiction books. All books listed are available on disc, on cassette, or in braille in network library collections provided by the National Library Service for the Blind and Physically Handicapped, Library of Congress.

This bibliography has been designed to make the world more understandable and manageable for the student between second and sixth grades and to encourage creative growth through literature. Each book listing includes one of the following statements: grades K to 3, grades 1 to 3, grades 2 to 4, grades 2 to 5, grades 3 to 5, grades 3 to 6, or grades 4 to 6. These statements are only general guidelines; elementary readers might choose to discover books outside their grade levels. All of the books provide knowledge, recreation, and discovery.

Discoveries: Fiction for Elementary School Readers is available in large-print and braille formats. The large-print edition contains titles on disc, on cassette, or in braille. The braille edition lists only braille. In the large-print edition, books available on flexible disc are cited with their cassette versions.

Each book is briefly annotated. Some of the annotations for braille books will include the term PRINT/BRAILLE. This means the same text is in print and braille on pages facing each other. PRINT/BRAILLE books enable blind and sighted readers to share the experience of reading a book together.

The list of fiction books is divided into seventeen sections. Each section is arranged alphabetically by author. To locate a book, use the table of contents, which lists books by subject, and the alphabetical author-title index. To order books, complete the order form at the back of the bibliography and send it to your cooperating library. Book numbers are listed by format. Flexible-disc book numbers are included on the order form after the braille listing.

About the Free Reading Program

The National Library Service for the Blind and Physically Handicapped (NLS) loans books and magazines to individuals who have problems reading because of a visual or physical limitation, temporary or permanent.

Books, playback equipment, headphones, and other aids are delivered by mail. Book descriptions, catalogs, and bibliographies such as this one are also mailed regularly to inform readers of new materials available.

No postage is required to borrow or return books, equipment, and other materials, and all materials are free.

Thousands of books on discs, cassettes, and in braille are available through a network of cooperating libraries. Fiction and nonfiction selections include classics, romances, science fiction, biographies, bestsellers, gothic novels, how-to books, and many more. Popular magazines are converted into discs, cassettes, and braille, and mailed to subscribers directly from producers. Music services are provided directly from NLS.

Eligibility for the program is determined by the inability to see well enough to read a conventional print book or to hold a book and turn pages. Individuals wishing service need a brief statement describing their disability from a competent authority such as a medical doctor, nurse, optometrist, ophthalmologist, staff member of a health care institution, or a librarian.

For specific eligibility requirements and more information, write to the National Library Service for the Blind and Physically Handicapped, Library of Congress, Washington, DC 20542.
